

Harington's Hotel Access Statement

Introduction

Harington's Hotel is a 13 bedroom boutique hotel located in the centre of the city of Bath. The building is a amalgamation of a number of Georgian townhouses. The property is Grade II listed. As they original building dates back to the 1500's and is a listed property as a result we are limited in making modern alterations.

Pre-Arrival

We are located on a cobbled on way street in the centre of Bath. Cars can pull up outside the hotel on the yellow lines to unload their bags into the hotel and collect one of our parking permits for our reserved off-site parking bays in Charlotte street car park, which is approximately a 5 minute walk from the hotel. Please note that these parking permits need to be booked in advance as they are limited in supply. The train and bus station are approximately a 10 minute walk from the hotel. Taxis are usually available at the train station. A taxi journey should take 5-10 minutes from the station to the hotel. You can contact us via phone, e-mail or fax. Please see our contact details detailed on our web site. www.haringtonshotel.co.uk

Main Entrance

The main entrance has three steps up into the reception area of the hotel. There are two steps down from the reception area into the lounge area. You need to pass through this area to get to the bedroom area of the hotel.

Public Areas

The public areas are again on split levels, with a step down from the lounge into the bar area and a step down from the lounge area towards the front restaurant area. There is adequate seating in the bar area and the lounge area for guests. There is also a outdoor seating area with tables and chairs. The public toilets are at basement level and are accessed via a spiral staircase.

Guest Accommodation

All the hotel bedrooms are on the first floor or higher. We do not have any ground floor rooms available. Accommodation is spread over three floors. We do not have a lift as we are a listed property. All rooms are very different due to the age and nature of the building. If you have any special requirements please let us know in advance and we can advise you accordingly. Some door frames are low which again is in keeping with the age and character of the property. Some rooms again are on split levels with steps up to the bathroom area. Bathrooms provide baths with shower overhead, walk in showers or cubical showers. Again if you have individual requirements please let us know. All rooms have thermostatically controlled radiator valves.

If you have any further questions regarding access within the hotel or any special requests regarding room layout please contact us in advance and we can advise you what would be the best solution for your circumstances. We look forward to helping you in enjoying your stay at Harington's Hotel Bath.
